PROFILE *Kurzprofil*

IT specialist and corporate trainer transitioning into Information Security GRC, combining hands-on operational technical grounding with over 5,000 hours of experience translating complex regulatory and technical risk into language that executives and boards act on. Currently completing an MSc in Computer Science at Heriot-Watt University while running a live ISO 27001:2022 gap-analysis and risk assessment engagement. Holds the PECB ISO/IEC 27001 Provisional Implementer and Google Cybersecurity Professional certificates, with the PECB NIS2 Lead Implementer, ISO 27001 Lead Auditor, and (ISC)^2 Associate credentials in progress. Building working German fluency toward TestDaF C1.

WORK EXPERIENCE *Berufserfahrung*

04.2026 – Present — **ISO 27001 GRC Consultant (Pro Bono)** — Istanbul, Türkiye
Demiryürek Yapı A.Ş. — Construction

- Leading a full ISO 27001:2022 gap analysis across all Annex A control domains for a mid-size construction firm.
- Built the information asset inventory and conducted the risk assessment per ISO 27005 methodology.
- Drafted non-conformity documentation, the Statement of Applicability, and a remediation roadmap prioritized against the company's actual risk appetite.
- Reported progress and findings directly to senior management at each engagement phase.

01.2023 – Present — **Corporate Language Trainer** — Remote / Global
Voxy

- Delivered 5,000+ hours of Business English and executive-communication training to Board members, C-suite executives, managers, and cross-functional professionals at global organizations including Accenture, Mediaset, NuBank, Lundbeck, IBSA, Diasorin, Prometeia, Younited Credit, Cisalfa Sport, Gucci, Prada, Valentino, Versace, Tommy Hilfiger, Calvin Klein, and MEI, among others across Europe and worldwide.
- Conducted detailed needs analyses to design tailored curricula for executives, managers, and specialists.
- Specialized in leadership communication, presentation skills, negotiation language, and cross-cultural business interaction, the same skills that make technical risk land with non-technical stakeholders.

04.2019 – Present — **ESL Instructor** — Remote / Global
Cambly Inc.

- Delivered personalized English instruction to 4,000+ international students across 20+ countries, spanning A1–C2 proficiency levels.
- Adapted teaching methods to diverse learning objectives and cultural communication styles.

01.2016 – 02.2019 — **Apple Certified Mac & iOS Technical Advisor (ACiT / ACMT)** — Houston, TX, USA
Experimax

- Diagnosed and resolved hardware and software issues across the Apple device ecosystem, with direct responsibility for endpoint security, data protection, and access controls during device servicing.
- Managed device lifecycle work and translated technical findings into clear guidance for non-technical customers.

12.2012 – 01.2016 — **Sole IT Specialist** — Houston, TX, USA
Krishna Culture

- Administered all IT infrastructure for a global non-profit, including servers, network hardware, identity and access management, and user workstations.
- Led the end-to-end design, management, and migration of a new e-commerce platform.
- Architected an integrated workflow connecting sales and shipping departments, improving operational efficiency and continuity.

SELECTED GRC PROJECTS *Ausgewählte Projekte*

2025 – Present

GRC Portfolio: MunichTech GmbH ISMS (Simulated)

- Built a complete ISMS from the ground up for a fictional German B2B financial-data SaaS company across five domains: Governance & Scope, Risk Management, Statement of Applicability, Regulatory Compliance, and Audit Metrics.
- Aligned all documentation to ISO 27001:2022, EU NIS2, and DSGVO/GDPR, written to withstand real auditor scrutiny.

Portfolio: austinbondgrc.github.io
